

Data Sheet E – Results of Internal Review Committee

Date of Review/Recommendation: November 16, 2007

Water Body Under Evaluation:

Water Body ID #: 0863
Name: Little Shaver Creek (Class C)
Length of Segment: 4.9 miles
County(ies): Pettis

Use Attainability Analysis (UAA) Study:

UAA ID #: 0234
Submitter: BWR
Date(s) Conducted: May 20, 2007
Date Received: June 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
- ☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in May 2007 and no WBCR was observed. No interviews were conducted during the survey. However, during the 2005 survey, one interviewee revealed that his son wades in the creek. There was also further evidence of secondary contact (fishing tackle) observed during the 2005 survey.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 1 of the 3 sites evaluated, and was close at the other 2. Due to meeting the maximum depth criterion, the committee recommends the WBCR use designation be assigned. Due to the evidence and interview from 2005 confirming secondary contact, the committee recommends the Secondary Contact Recreation use designation be assigned.

Committee Recommendation:

☒ Add Use ☐ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
